## SUPER ERECTA SHELF® STEM CASTER CARTS – WIRE SHELVES

- **Stem Caster Carts** combine Super Erecta Shelf® wire shelving features with the mobility of stem casters to provide a high-quality, strong and versatile material handling cart.
- **Variety of Casters Available** : Select the caster that allows the right combination of rollability and maneuverability to suit your requirements. Casters are available in swivel, rigid or brake types. All Metro casters are non-marking and come complete with a 3½" (89mm) donut bumper. Refer to sheet #11.20 for additional caster information.
- **Unique Design** : Open wire surfaces minimize dust accumulation and allow a free circulation of air and greater visibility.
- **Fast, Secure Assembly** : Post has rolled, circular grooves along its entire height at 1" (25mm) intervals. A patented, tapered split sleeve snaps together around each post. Tapered openings in the shelf corners slide over the tapered split sleeves providing a positive lock. Cart is assembled in minutes without the use of any special tools.
- **Unique Post Design** : New SiteSelect post design provides a visual guide for positioning and adjusting shelves, saving considerable time during assembly and adjustment. An easy-to-identify triple groove, every 8 inches, offers a quick way to align all shelves. Bolt leveler on post bottom compensates for uneven surfaces.
- **Adjustability**: Shelves can be adjusted at 1" (25mm) intervals along the entire height of the post.
- **Versatile Construction**: Super Erecta Shelf® wire shelving can change as quickly as your needs change. By using various accessories, hundreds of shelving combinations become possible.

**TO ORDER BY COMPONENTS**

- Order shelves from sheet 10.01 or price list. (Will be packed with plastic split sleeves\*.)
- Order stem casters from sheet 11.20 or price list. Donut bumper comes with caster.

\* Aluminum split sleeves are recommended when unit will be towed, transported over the road or otherwise subjected to vibration or jolting. To order, see sheet #11.06 or price list.

\*\* Carts with polyurethane casters are designed to hold up to 900 lbs. (408 kg).  
Carts with rubber casters can hold up to 600 lbs. (272 kg).

**Important:** When ordering by components remember that stability decreases as the ratio of height to width increases. Units should be kept as wide and low as possible.
